Open to Relocation & Remote

PROFESSIONAL SUMMARY

Results-driven MERN Stack Developer (BCA 2025, 77.21%) with hands-on internship and freelance experience building scalable full-stack web applications using React.js, Node.js, Express, and MongoDB. Delivered production-ready applications with JWT Authentication, Redux Toolkit state management, and Stripe/Razorpay payment integration. Solid grasp of RESTful APIs, Agile workflows, Git-based collaboration, and component-based architecture. Eager to contribute to a fast-moving engineering team and grow into a well-rounded software engineer.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript (basic), HTML5, CSS3
Frontend: React.js, Next.js (basic), Redux, Redux Toolkit, Context API, Tailwind CSS, Bootstrap, Responsive Design
Backend: Node.js, Express.js, RESTful APIs, JWT Authentication & Authorization, RBAC, bcrypt
Database: MongoDB, Mongoose ODM, MySQL (basic)
Dev Tools: Git, GitHub, Postman, VS Code, Vercel, Netlify, npm
Payments & APIs: Stripe, Razorpay, third-party REST API integration
Soft Skills: Agile / Scrum, Cross-Browser Compatibility, Clean Code Practices, Team Collaboration, Problem Solving

PROFESSIONAL EXPERIENCE

Web Development Intern | GeeksforGeeks | Remote — Internship *Sep 2025 – Feb 2026*

- Developed and shipped 15+ production-quality React.js UI components using hooks, props & state management — improving user engagement metrics by an estimated 20% through optimized rendering and streamlined UX flows.
- Designed and deployed 10+ RESTful APIs using Node.js, Express.js, and MongoDB/Mongoose supporting full CRUD operations and cutting average data retrieval time through indexed queries and efficient schema design.
- Identified and resolved 30+ cross-browser compatibility issues across Chrome, Firefox, and Edge; collaborated in Agile team via Git/GitHub, participated in code reviews, sprint planning, and daily standups.

Freelance Full-Stack Developer | Self-Employed | Remote *2023 – Present*

- Independently designed, developed, and deployed multiple client-facing web applications end-to-end — from requirement gathering and UI/UX wireframing through backend API design to production deployment on Vercel.
- Managed full project lifecycle including client communication, iterative feature delivery, and post-launch support, demonstrating self-directed work ethic and professional accountability.

KEY PROJECTS

E-Commerce Web Application (Full MERN Stack) — *React.js, Node.js, Express.js, MongoDB, Redux Toolkit, JWT, Stripe, Razorpay | github.com/nitish0pandey*

- Architected full-stack e-commerce platform with RBAC, JWT-based authentication/authorization, and secure session management for customers and admins; Admin Dashboard for centralized product, inventory & order management.
- Implemented end-to-end shopping cart, order management, and checkout pipeline integrated with Stripe and Razorpay — handling real transaction flows with webhook event processing; global state managed via Redux Toolkit.

HG Design & Constructions – Corporate Website — *React.js, Tailwind CSS, Vercel | Live: hg-design-constructions.vercel.app*

- Designed and deployed a modern, fully responsive corporate website for an architectural firm — optimized with lazy loading, code splitting, and Vercel CDN; mobile-first Tailwind CSS design with 90%+ Lighthouse score.

Task Management Application — *MERN Stack, Redux Toolkit, Context API, Tailwind CSS | github.com/nitish0pandey*

- Built full-stack task manager with complete CRUD operations, real-time UI updates via Redux Toolkit & Context API, persistent MongoDB storage; achieved 90%+ Lighthouse performance score with mobile-first Tailwind CSS design.

CURRENTLY LEARNING

TypeScript • Next.js • Docker • AWS Cloud Fundamentals • GraphQL • React Native (basics) • Generative AI — *Actively upskilling to align with industry demands*

EDUCATION & CERTIFICATIONS

Master of Computer Applications | Cochin University College of Engineering Kuttanad, Cochin University of Science and Technology
2026 – Present

Bachelor of Computer Applications (BCA) | Maulana Mazharul Haque Arabic and Persian University (MMHAPU), Patna, Bihar *2022 – 2025 | 77.21%*
Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Web Technologies, Software Engineering, Object-Oriented Programming, Computer Networks

- MERN Full-Stack Developer Certification — GeeksforGeeks (2026)
- Completed 4-month paid internship at GeeksforGeeks — one of India's largest tech learning platforms.
- Delivered 3 production-deployed applications as a freelance developer — available on GitHub portfolio.
